

Communication & Language (C&L)

- We will read stories and use story sequencing pictures to order and talk about key events.
- We will play listening games.
- We will explain our knowledge and understanding of the ocean.
- We will learn to focus on activities for longer periods of time.

Personal, Social and Emotional Development (PSED)

- We will discuss animals that live in the sea that are endangered and explain how we can help to keep them safe
- We will read the story 'The snail and the whale' and talk about how all creatures can help each other and live together kindly.
- Discuss the importance of sharing through the story of 'The Sharing Shell.'

Physical development (PD)

- We will have shark races.
- We will take part in competitive sports as part of Sports Day.
- We will learn to negotiate space when running.
- We will learn to write letters correctly.
- We will learn to dress and undress ourselves.

Literacy (L)

- We will explore nonfiction books (information books) and how they are different to story books.
- We will listen to the stories 'Commotion in the Ocean' and 'Pirates Love Underpants.'
- We will talk about the beginning, middle and end of stories.
- We will talk about key events, characters and settings in a story.
- We will use our phonic knowledge or mark making skills to write about the ocean.

Mathematics (M)

- We will explore capacity and answer questions such as How many sea creatures can you fit in before the water over flows? How many small bottles will it take to fill the bucket?
- We will name and describe shapes.
- We will count groups of objects.
- We will compare groups of objects.
- We will count irregular arrangements of fish.
- We will learn to use a number track.
- We will catch number fish and recognise the numbers on them.
- We will put numbers in order.
- We will look for missing numbers in sequences.

Nursery: Summer Two Commotion in the Ocean

Understanding of the World (UTW)

- We will discuss where different sea animals might live and how they move around in the water.
- We will explore objects that float and sink.
- We will talk about rock pools and the type of life instead them.
- We will taste fish and describe fish
- We will use computers to research information on sea creatures.

Expressive Arts and Design (EAD)

- We will create sea life pictures using wax crayons and water colours.
- We will move rhythmically to the song 'Under the Sea.'
- We will experiment with adding different instruments to music.
- We will create different roles in our aquarium, seaside and pirate ship role play areas.
- We will explore different textures when creating sea creatures.
