The London Eye

The London Eye is a huge Ferris wheel built on the banks of the River Thames. At the top of the wheel, views of over 35 miles can be seen. It takes 30 minutes to complete one full circle and because it moves so slowly, it doesn't need to stop to let people on or off. It took 7 years to make opening on 31st December 1999 and can carry 25 people in each capsule.

BBC Broadcasting House

This is the headquarters of the BBC situated in central London. BBC News, Radio, TV and Online services are all made from here. The first broadcast was made in 1932 and in 2003 major renovations began to make a new broadcasting house. BBC Radio shows such as BBC Radio 1 are broadcast from here as well as TV programmes including BBC World News, The One Show and BBC Sport.

Royal Albert Hall

The Royal Albert Hall is a concert hall in the heart of London. It was opened in 1871 by Queen Victoria. Originally named the Hall of Arts and Science, the name was changed after Prince Albert's death. It can hold 5 400 people who come to see events such as ballets, rock concerts, proms and film premieres. It also houses England's largest organ with 9 999 different pipes.

London Underground

This is the oldest and largest rail network in the world. It first opened in 1863 with wooden carriages pulled by steam trains. There are 250 miles of track, 11 different lines and 287 stations. Despite its name, around half of the tracks actually runs above the ground. Around 5 million people travel on the Underground each day.

Tower Bridge

Tower Bridge was built between 1886 and 1894. It is 224 metres long and consists of a road, walkways and 2 towers. The bridge connects the north and south side of London over the River Thames. Each tower is 65 metres high and the walkways are 40 metres above the river. Over 40 000 people use the bridge each day. The central part of the bridge can be raised up in order to allow ships to travel along the river although 24 hours notice is needed to raise the bridge. This is done around 1 000 times each year.

The Gherkin

The Gherkin is a huge 180 metre skyscraper in London's financial area. It was built in 2001 and amazingly uses only 1 piece of curved glass. As well as having amazing views of London from the building itself, The Gherkin can be seen from 30 km away. The building has 41 floors and 18 lifts to take workers to the correct floor.

St. Paul's Cathedral

The Cathedral was built by Sir Christopher Wren between 1675 and 1710. It is one of the largest churches in the world with a dome 366 ft high. This dome can be reached by climbing 259 steps. The Cathedral has a famous Whispering Gallery where someone's whisper can be clearly heard 112 ft away at the other side of the wall. There are 200 monuments and memorials in the Church following many funerals including those of the famous Winston Churchill and ex Prime Minister, Margaret Thatcher. The wedding of Prince Charles and Princess Diana was also held at the Cathedral.
