

Seaside And Creatures

A colorful illustration of a coastal scene. The top half shows dark, jagged rocks in the sea. The middle section features a sandy beach curving from the top right towards the bottom left. The water is depicted with light blue and green wavy lines. In the foreground, there is a patch of green grass. The title 'Seaside And Creatures' is written in large, bold, orange letters with a white outline, centered over the beach and water. A small 'twinkl' logo is visible on the sand near the bottom center.
