

# What Makes a good Geographer?

<p>To have opinions that are justified through understanding issues in society and the environment.</p>	 <p>To give my views on places, fieldwork and features of the world around us.</p>	<p>To be able to research information and present what I have learnt in Geography.</p>
 <p>To use geographical skills and techniques through fieldwork e.g. map skills.</p>	 <p>To develop a passion and sense of curiosity for the world and the people who live there.</p>	
<p>To compare my findings and reach an answer to a question.</p>	<p>Our Geography Intention: To develop children's experiences and understanding of Geography, inspiring and igniting their curiosity about the wider world.</p> 	<p>To understand where I live in relation to the rest of the world.</p>
